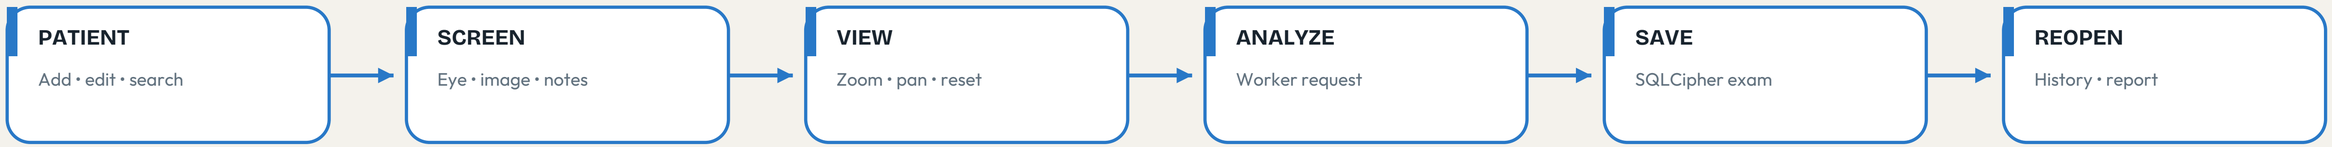
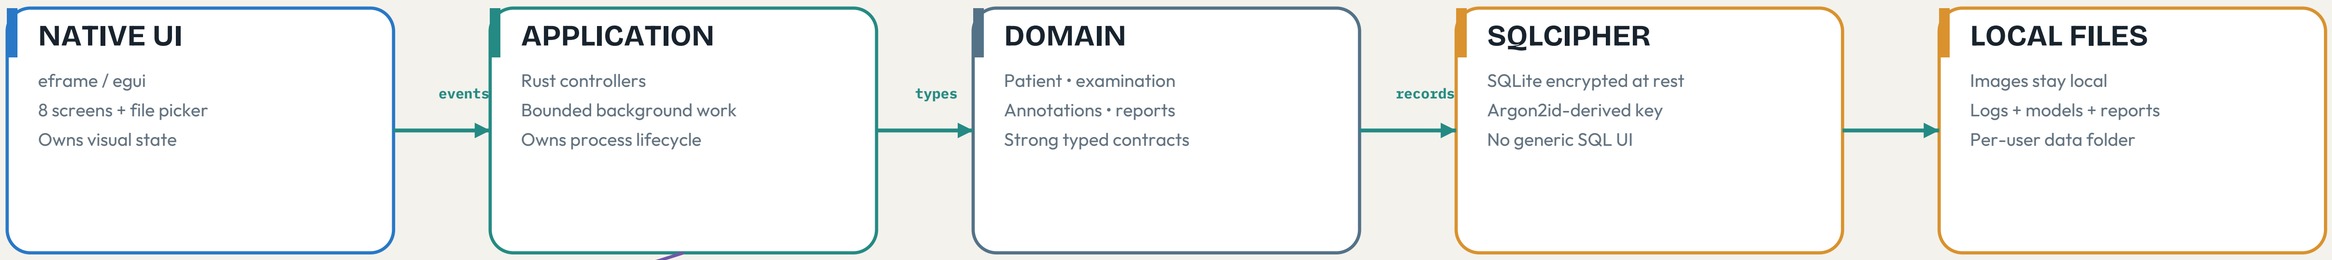
HOW THE PRODUCT, CODE, DATA AND AI CONNECT

Blue = user flow Teal = Rust control Amber = protected data Violet = AI Red = still unverified

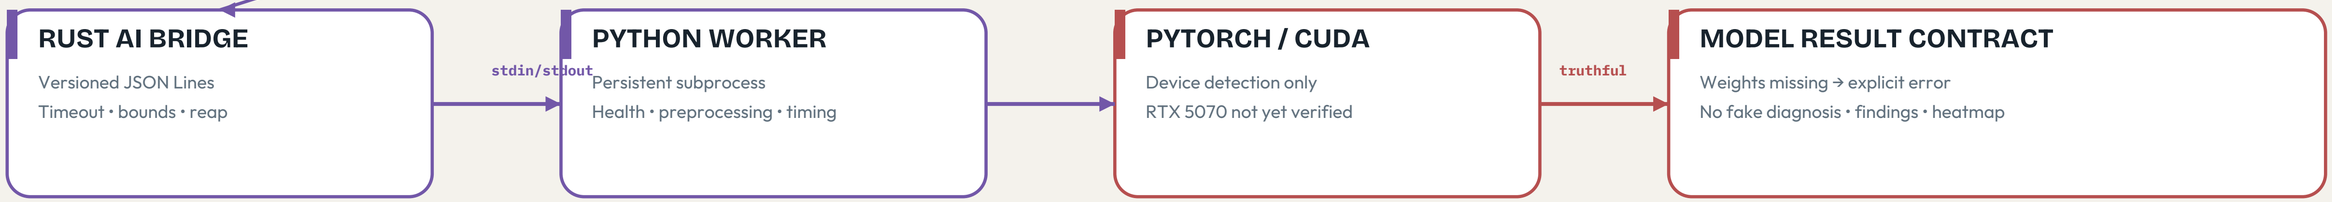
01 / CLINICAL WORKFLOW



02 / WHO CALLS WHAT



03 / AI PIPELINE



04 / STATUS

- Ubuntu GUI launched
- 8-screen smoke passed
- 12 Rust + 5 Python tests
- Encrypted patient/exam store
- Ubuntu + Windows packages
- Trained model adapter
- Windows execution
- RTX 5070 / CUDA timing
- Clinical PDF exporter
- Clinical validation

TECH STACK

RUST PYTHON SQLCIPHER

egui • eframe • rusqlite • Argon2id • Pillow • JSONL • Cargo • PowerShell

Legacy reference: React + TypeScript + Tauri | Final runtime: no WebView / HTTP server
